

**Amanda Cotton,
Electronic Waste Coordinator, Minnesota
Pollution Control Agency
SAF Board Member**

Amanda Cotton works for the Minnesota Pollution Control Agency coordinating the Minnesota Electronics Recycling Act. She also works on product stewardship policy for products such as solar panels, batteries, carpet, mattresses and packaging. The Minnesota Pollution Control Agency is committed to ensuring that every Minnesotan has healthy air, sustainable lands, clean water, and a better climate.

Through the authority of state and federal statutes and guidelines, the state agency focuses on preventing and reducing the pollution of air, land, and water, and leads Minnesota's efforts to protect against the devastating effects of climate change.
